How to Have an Epic Retirement Bec Wilson, 2023-07-26 More than 500,000 Australians plan to retire in the next five years and are in their pre-retirement or 'part-time' retirement years, preparing for the massive life change that signals their move from working every day to living as they choose. In the years before they retire, and the early years of retirement, people want to prepare well and set themselves up for the exciting 30+ year journey that could be ahead of them. This is where *How to Have an Epic Retirement* comes in. There is no one in Australia who has more insight into what retirees want and what they need to know to achieve it than Rebecca Wilson, founder of the hugely successful online platform *Starts at 60*. Armed with information and the best anecdotal knowledge from retirees and those planning to retire, Rebecca has compiled the ultimate guidebook for those who want to make the most of this time of their lives. With examples, common questions and

information you can apply to your own circumstances, Rebecca addresses the six key pillars of a great retirement: time, money, health, happiness and fulfilment, travel and your home. How to Have an Epic Retirement guides readers through the way the systems of retirement work, so you can learn the valuable lessons that modern retirees wish someone had shared with them before they kicked off the changes and stages of life that come after retirement. Every modern retiree can have an Epic Retirement - and this book will show you how.

Free Lunch Thinking Tom Bergin, 2021-01-28 Countries with smaller governments grow faster. Tobacco taxes are the best way to cut smoking. Government regulation discourages entrepreneurship. Award-winning investigative journalist Tom Bergin digs into eight mantras widely accepted by Western governments and, by talking to the people who promote those ideas and the workers, businesspeople and consumers who have felt their impacts, finds they often don't play out as expected. Smart, funny and incisive, Free Lunch Thinking is essential reading for anyone who really wants to know how economies tick - and why they often don't. _____ 'I couldn't put it down. A thorough and nuanced examination of the evolution of supply side economics . . . I loved it.' Arthur Laffer, creator of the Laffer Curve 'An entertaining and thought-provoking exploration of economic theories that have been both widely accepted and largely wrong . . . I devoured it in a couple of sittings.' Reuters Breakingviews 'An insightful account of the recent history of economic thought. If you are looking for a book which challenges you without being annoying - make it this one.' Institute of Economics Affairs
