The 48 Laws of Power Robert Greene, 2000-09-01 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of The Laws of Human Nature. This is the only authorized paperback edition in the US. In the book that People magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and

Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Seduction Rachel O'Neill, 2018-06-28 Within the so-called seduction community, the ability to meet and attract women is understood as a skill which heterosexual men can cultivate through practical training and personal development. Though it has been an object of media speculation – and frequent sensationalism – for over a decade, this cultural formation remains poorly understood. In the first book-length study of the industry, Rachel O'Neill takes us into the world of seduction seminars, training events, instructional guidebooks and video tutorials. Pushing past established understandings of 'pickup artists' as pathetic, pathological or perverse, she examines what makes seduction so compelling for those drawn to participate in this sphere. Seduction vividly portrays how the twin rationalities of neoliberalism and postfeminism are reorganising contemporary intimate life, as labour-intensive and profit-orientated modes of sociality consume other forms of being and relating. It is essential reading for students and scholars of gender, sexuality, sociology and cultural studies, as well as anyone who wants to understand the seduction industry's overarching logics and internal workings.
