Robert L. Herbert, Georges Seurat

Vincent Van Gogh's Cat, 2010

Vincent Van Gogh Vincent van Gogh, Colta Feller Ives, 2005 Presents a collection of the drawings of Vincent Van Gogh, providing images of his works in charcoal, chalk, ink, graphite, and watercolor, and including essays the place each drawing in its historical context, explaining its significance.

Van Gogh's Cypresses Susan Alyson Stein, 2023-05-15 Vincent van Gogh (1853-1890) immortalized the cypress tree in signature images that have become synonymous with his fiercely original power of expression. This richly illustrated publication illuminates the backstory of his invention for the first time, from his initial investigations of the motif in benchmark drawings from Arles to his realization of their full evocative potential in such iconic canvases as *The Starry Night* and *Wheat Field with Cypresses*, painted at the asylum in Saint-Rémy. Susan Alyson Stein retraces the Dutch artist's inspired response to the flamelike evergreens as they gained ground in his works and artistic thinking over the course of his sojourn in the South of France. The volume provides further insight into Van Gogh's creative process through a technical study focused on two celebrated works from the artist's epic painting campaign of June 1889. The visual and literary heritage of the cypresses is featured in a compilation of images and excerpts from nineteenth-century poetry, novels, and travel writing — many translated into English for the first time.

Jo van Gogh-Bonger Hans Luijten, 2022-11-03 It is so good, after so many years of public indifference, even hostility towards Vincent and his work, to feel towards the end of my life that the battle is won.' JO VAN GOGH-BONGER TO GUSTAVE COQUIOT, 1922 'It is a sacrifice for the sake of Vincent's glory.' JO VAN GOGH-BONGER ON THE SALE OF 'THE SUNFLOWERS' TO THE NATIONAL GALLERY, UK, 1924 Little known but no less influential, Jo van Gogh-Bonger was sister-in-law of Vincent van Gogh, wife of his brother, Theo. When the brothers died soon after each other, she took charge of Van Gogh's artistic legacy and devoted the rest of her life to disseminating his work. Despite being widowed with a young son, Jo successfully navigated the male-dominated world of the art market-publishing Van Gogh's letters, organizing exhibitions in the Netherlands and throughout the world, and making strategic sales to private individuals and influential dealers-ultimately establishing Van Gogh's reputation as one of the finest artists of his generation. In doing so, she fundamentally changed how we view the relationship between the artist and his work. She also lived a rich and fascinating life-not only was she friends

with eminent writers and artists, but she also was active within the Social Democratic Labour Party and closely involved in emerging women's movements. Using rich source material, including unseen diaries, documents and letters, Hans Luijten charts the multi-faceted life of this visionary woman with the drive to shake the art world to its core.

Vincent Van Gogh's Cat East Washington Academy, Muncie, Indiana, U.S.,2014 Students used their literary and artistic licenses to develop a story about Vincent van Gogh's cat, who began an adventure in Van Gogh's field of sunflowers, then continued his journey by leaping, exploring, stretching, and reclining (all feline-typical antics) while visiting other famous artists' paintings and ultimately, waltzing into van Gogh's Starry, starry night. Van Gogh and the End of Nature Michael Lobel,2024-06-25 A groundbreaking reassessment that foregrounds Van Gogh's profound engagement with the industrial age while making his work newly relevant for our world today Vincent van Gogh (1853-1890) is most often portrayed as the consummate painter of nature whose work gained its strength from his direct encounters with the unspoiled landscape. Michael Lobel upends this commonplace view by showing how Van Gogh's pictures are inseparable from the modern industrial era in which the artist lived--from its factories and polluted skies to its coal mines and gasworks--and how his art drew upon waste and pollution for its subjects and even for the very materials out of which it was made. Lobel underscores how Van Gogh's engagement with the environmental realities of his time provides repeated forewarnings of the threats of climate change and ecological destruction we face today. Van Gogh and the End of Nature offers a radical revisioning of nearly the full span of the artist's career, considering Van Gogh's artistic process, his choice of materials, and some of his most beloved and iconic pictures. Merging a timely sense of environmental urgency with bold new readings of the work of one of the world's most acclaimed artists, this book weaves together detailed historical research and perceptive analysis into an illuminating portrait of an artist and his changing world.

Seurat, 1859-1891 Robert L. Herbert, Georges Seurat, 1991 A volume which embodies an entire generation of scholarship on the artist.
