**Pakistan's Inter-Services Intelligence Directorate** Owen L. Sirrs, 2016-07-01 This book is the first comprehensive study of Pakistan's Inter-Services Intelligence Directorate (ISI). The rise of Pakistan-backed religious extremist groups in Afghanistan, India, and Central Asia has focused international attention on Pakistan's premier intelligence organization and covert action advocate, the Inter-Services Intelligence Directorate or ISI. While ISI is regarded as one of the most powerful government agencies in Pakistan today, surprisingly little has been written about it from an academic perspective. This book addresses critical gaps in our understanding of this agency, including its domestic security mission, covert backing of the Afghan Taliban, and its links to al-Qa'ida. Using primary source materials, including declassified intelligence and diplomatic reporting, press reports and memoirs, this book explores how ISI was transformed from a small, negligible counter intelligence outfit of the late-1940s into the national security behemoth of today with extensive responsibilities in domestic security, political interference and covert action. This study concludes that reforming or even eliminating ISI will be fundamental if Pakistan is to successfully transition from an army-run, national security state to a stable, democratic society that enjoys peaceful relations with its neighbours. This book will be of interest to students of intelligence studies, South Asian politics, foreign policy and international security in general.

*Pakistan's Political Labyrinths* Ravi Kalia, 2015-08-11 This book explores Pakistan from different vantage points. It examines a variety of events in contemporary Pakistan through a comprehensive analysis of identity and power politics; media landscapes; military recruitment; role of madrassahs; terrorism and militancy; civil war as well as outlines future trajectories. It studies themes such as Pakistan's relationship with India, the legacy of Jinnah, gender and fundamentalism, urbanisation, unrest that have plagued the northern areas. It further looks at the nation after the capture of Osama bin Laden and the changing nature of its relation with the US in its aftermath. Including contributions from experts in the field and policy-makers across the world, this volume will interest scholars and researchers on Pakistan studies, politics, and international relations. It will also appeal to government think tanks and the general reader.

**Pakistan's Enduring Challenges** C. Christine Fair, Sarah J. Watson, 2015-03-18 From the start of the U.S. war in Afghanistan in 2001 to the withdrawal of U.S. troops in 2014, Pakistan's military cooperation was critical to the United States. Yet Pakistani politics remain a source of anxiety for American policymakers. Despite some progress toward

democratic consolidation over the last ten years, Pakistan's military still asserts power over the country's elected government. Pakistan's western regions remain largely ungoverned and home to the last remnants of al-Qaeda's original leadership as well as multiple militant groups that have declared war on the Pakistani state. The country's economy is in shambles, and continuing tensions with India endanger efforts to bring a durable peace to a region haunted by the distant threat of nuclear war. Pakistan's Enduring Challenges surveys the political and economic landscape of Pakistan in the wake of U.S. military withdrawal. Experts in the domestic and international affairs of the region consider the country's prospects from a variety of angles, including security issues and nuclear posture, relations with Afghanistan, India, and the United States, Pakistan's Islamist movements, and the CIA's use of drone warfare in Pakistan's tribal areas. This timely volume offers a concise, accessible, and expert guide to the currents that will shape the country's future. Contributors: Christopher Clary, C. Christine Fair, Daveed Gartenstein-Ross, Karl Kaltenthaler, Feisal Khan, William J. Miller, Aparna Pande, Paul Staniland, Stephen Tankel, Tara Vassefi, Sarah J. Watson, Joshua T. White, Huma Yusef.

The book covers diverse media types including TV, radio, newspapers, print media, films, documentary, stage performance, and social media. Detailed, interdisciplinary, analytical, and with original perspectives from journalists as well as academics, this volume will be useful to scholars and researchers of media studies, Pakistan studies, politics and international affairs, military and terrorism studies, journalism and communication studies, and South Asian studies. **Television at Large in South Asia** Aswin Punathambekar, Shanti Kumar, 2015-09-25 This book explores the empirical and theoretical significance of understanding television as a dynamic technology, a creative industry, and a vibrant cultural form that is at large in South Asia. Bringing together prominent scholars who have shaped television studies in South Asia, as well as emerging scholars who address new topics, this book decisively positions television as a key site in the study of South Asian History and Culture. In doing so, it also positions the study of television in South Asia and the South Asian diaspora as crucial in the rethinking of global television history and opens up new directions for the future of television studies. This volume will be essential reading for scholars and teachers of media and communication studies, media history, anthropology, and sociology, besides being of great interest to policymakers and media professionals. This book was originally published as

a special issue of South Asian History and Culture.

**Pakistan's Democratic Transition** Ishtiaq Ahmad, Adnan Rafiq, 2016-11-03 Politics in Pakistan has traditionally been understood in the context of civil-military relationship. In May 2013, for the first time in history, Pakistan saw an elected government complete a full term in office and transfer power through the ballot box to another civilian government. In view of such an important development, this book offers critical perspectives on Pakistan's current democratic transition and its implications for national politics, security and foreign policy. It critically analyses the emerging political trends in the country, including their underlying sources, attributes, constraints, and prospects of sustainability. Drawing on history, diverse theoretical perspectives, and empirical evidence, it explains the dynamics of the democratic process, contested borders and spaces, and regionalism. Contributions are from 13 prominent scholars in the field, who provide a wide-ranging analysis of Pakistan's contemporary national and regional challenges, as well as the opportunities they entail for its viability as a democratic state. Taking the debate on Pakistan beyond the outmoded notions of praetorian politics and security, the book explores the future prospects of civilian supremacy in the country. It will be of interest to students and scholars of South Asian Politics, Political Sociology and Security Studies, as well as policy-makers, diplomats, security experts and military professionals.

*The Dispensable Nation* Vali Nasr, 2013-04-16 In a brilliant and revealing book destined to drive debate about the future of American power, Vali Nasr questions America's dangerous choice to engage less and matter less in the world. Vali Nasr, author of the groundbreaking *The Shia Revival*, worked closely with Hillary Clinton at the State Department on Afghan and Pakistani affairs. In *The Dispensable Nation*, he takes us behind the scenes to show how Secretary Clinton and her ally, Ambassador Richard Holbrooke, were thwarted in their efforts to guide an ambitious policy in South Asia and the Middle East. Instead, four years of presidential leadership and billions of dollars of U.S. spending failed to advance democracy and development, producing mainly rage at the United States for its perceived indifference to the fate of the region. After taking office in 2009, the Obama administration had an opportunity to fundamentally reshape American foreign policy, Nasr argues, but its fear of political backlash and the specter of terrorism drove it to pursue the same questionable strategies as its predecessor. Meanwhile, the true economic threats to U.S. power, China and Russia, were quietly expanding their influence in places where America has long held sway. Nasr makes a compelling case that behind specific flawed decisions lurked a desire by the White House to pivot away from the complex problems of the Muslim world. Drawing on his unrivaled expertise in Middle East affairs and firsthand experience in diplomacy, Nasr demonstrates why turning our backs is dangerous and, what's more, sells short American power. The United States has secured stability, promoted prosperity, and built democracy in region after region since the end of the Second World War, he reminds us, and *The Dispensable Nation* offers a striking vision of what it can achieve when it reclaims its bold leadership in the world.

**Apocalyptic Realm** Dilip Hiro, 2012-04-17 Examines the rise of the jihadist movement from its initial violence in Afghanistan in 1980 to now and presents a history of Islamist terrorism in South Asia, revealing the causes of today's escalating terrorist threat.

**Television in India** Nalin Mehta, 2008-06-03 This book examines the development of television in India since the early 1990s, and its implications for Indian society more widely. Until 1991, India possessed only a single state-owned television channel, but since then there has been a rapid expansion in independent satellite channels which came as a complete break from the statist control of the past. This book explores this transformation, explaining how television, a medium that developed in the industrial West, was adapted to suit Indian conditions, and in turn has altered Indian social practices, making possible new ways of imagining identities, conducting politics and engaging with the state. In particular, satellite television initially came to India as the representative of global capitalism but it was appropriated by Indian entrepreneurs and producers who Indianized it. Considering the full gamut of Indian television - from national networks in English and Hindi to the state of regional language networks - this book elucidates the transformative impact of television on a range of important social practices, including politics and democracy, sport and identity formation, cinema and popular culture. Overall, it shows how the story of television in India is also the story of India's encounter with the forces of globalisation.

*Intercultural Relations and Ethnic Conflict in Asia* Bute, Swati Jaywant Rao, 2016-08-01 Many geographically diverse regions in the world contain a rich variety of cultures within them. While some have many socio-cultural similarities, tensions can still arise to make such areas unstable and vulnerable. *Intercultural Relations and Ethnic Conflict in Asia* is a critical reference source for the latest scholarly research on the economic, political, and socio-cultural disputes occurring throughout various South Asian countries and the effects of these struggles on citizens and governments. Highlighting pertinent issues relating to patterns of conflict, the role of media outlets, and governmental relations, this book is ideally designed for academicians, upper-level students, practitioners, and professionals.

*Federalism in South Asia* Mahendra Prasad Singh, Veena Kukreja, 2014-08-07 This book is one of the first in-depth and systematic studies on the functioning and aspiring federations of South Asia. It examines how federal dynamics in India, Pakistan, Nepal, and Sri Lanka are impinged on by the nature of their specific constitutions; their societal, political and cultural fabrics; composition of power elites and ruling classes; structures of political economy and market; electoral and party systems; mass media; and information technology. The authors offer a comparative, analytical, conceptual, and theoretical framework to understand patterns and trends as also experiences of and possibilities for federalism in South Asia. They highlight divergences and similarities, successes and key challenges, while indicating federalism's wider regional relevance in the discourse on democracy and governance. The book concludes that the multicultural character of these societies — beset with ethnic and regional conflicts, separatist and military undercurrents — makes federal political solutions

the only viable route. Providing a wealth of material, this will deeply interest scholars, students and teachers of comparative politics, political science, federal studies, area studies as well as those interested in political structures and processes in South Asia.

**Television for Women** Rachel Moseley, Helen Wheatley, Helen Wood, 2016-11-10 Television for Women brings together emerging and established scholars to reconsider the question of 'television for women'. In the context of the 2000s, when the potential meanings of both terms have expanded and changed so significantly, in what ways might the concept of programming, addressed explicitly to a group identified by gender still matter? The essays in this collection take the existing scholarship in this field in significant new directions. They expand its reach in terms of territory (looking beyond, for example, the paradigmatic Anglo-American axis) and also historical span. Additionally, whilst the influential methodological formation of production, text and audience is still visible here, the new research in Television for Women frequently reconfigures that relationship. The topics included here are far-reaching; from television as material culture at the British exhibition in the first half of the twentieth century, women's roles in television production past and present, to popular 1960s television such as *The Liver Birds* and, in the twenty-first century, highly successful programmes including *Orange Is the New Black*, *Call the Midwife*, *One Born Every Minute* and *Wanted Down Under*. This book presents ground-breaking research on historical and contemporary relationships between women and television around the world and is an ideal resource for students of television, media and gender studies.

**Global Journalism in Comparative Perspective** Dhiman Chattopadhyay, 2024-02-13 This book explores how journalism is practiced around the world and how there are multiple factors at the structural and contextual level shaping journalism practice. Drawing on case studies of how conflicts, pandemics, political developments, or human rights violations are covered in an online-first era, the volume analyzes how journalism is conducted as a process in different parts of the world and how such knowledge can benefit today's globally connected journalist. A global team of scholars and practicing journalists combine theoretical knowledge and empirically rich scholarship with real-life experiences and case studies to offer a storehouse of knowledge on key aspects of international journalism. Divided into four sections – journalistic autonomy, safety, and freedom; mis(information), crises, and trust; technology, news flow, and audiences; and diversity, marginalization, and journalism education – the volume examines both trends and patterns, as well as cultural and geographical uniqueness that distinguish journalism in different parts of the world. This volume will be of interest to students and scholars of journalism, media studies, and mass communication, as well as practicing journalists who want to report globally and anyone interested in gaining a foundational understanding of or researching journalism practices around the world.

**Birth of Bangladesh as Canada Walks a Diplomatic Tightrope** Mustafa Chowdhury, 2024-11-14 This book focuses on the activities of the government of Canada, Canadian NGOs, Canadian media, and the people of Canada during the War of

Liberation of Bangladesh in 1971. It outlines Canada's assistance to the victims of the military crackdown, as well as Canada's mediatory role. Having no strong ties of strategic interests in Pakistan or India, Canada had a sympathetic understanding of the two main parties involved - the military government of President Yahya Khan and the democratic rights of the people of Pakistan represented by Sheikh Mujibur Rahman, prime minister-designate. While the Nixon administration openly favoured Pakistan, Canada's foreign policy constrained Canada. The government was barraged with endless questions: Was the military take-over and crackdown a violation of the democratic rights of the people of Pakistan? Should the process of democracy be upheld under all circumstances? Should President Yahya continue his military reprisals in East Pakistan since the integrity of Pakistan was at stake? What was India's role? Was India dragged into the situation due to the influx of refugees? What role should Canada play as a senior member of the Commonwealth? There were no clear answers to these questions. The declaration of independence for Bangladesh by the rebel forces and the formation of the Provisional Government of Bangladesh in India had already created another new twist on the complex issue. Throughout the nine long months of the struggle for Bangladesh's independence, Canada maintained its "neutrality." Yet, it will be seen how Canada chose not to be a spectator but a player, doing her best while still adhering to its foreign policy of "non-intervention."

**The Postcolonial World** Jyotsna G. Singh, David D. Kim, 2016-10-04 The Postcolonial World presents an overview of the field and extends critical debate in exciting new directions. It provides an important and timely reappraisal of postcolonialism as an aesthetic, political, and historical movement, and of postcolonial studies as a multidisciplinary, transcultural field. Essays map the terrain of the postcolonial as a global phenomenon at the intersection of several disciplinary inquiries. Framed by an introductory chapter and a concluding essay, the eight sections examine: Affective, Postcolonial Histories Postcolonial Desires Religious Imaginings Postcolonial Geographies and Spatial Practices Human Rights and Postcolonial Conflicts Postcolonial Cultures and Digital Humanities Ecocritical Inquiries in Postcolonial Studies Postcolonialism versus Neoliberalism The Postcolonial World looks afresh at re-emerging conditions of postcoloniality in the twenty-first century and draws on a wide range of representational strategies, cultural practices, material forms, and affective affiliations. The volume is an essential reading for scholars and students of postcolonialism.

**Islam, Muslims, and America** Arshad Khan, 2003 Islam, Muslims and America gives a sound introduction to the history of Islam's experiences with the West, and the principles of Islamic teachings; and in that context identifies and discusses the reasons for Muslim-West alienation. It highlights both the disconnect between true Islamic beliefs and extremist actions, and the failure of Americans to seek the root causes of the current anti-American trend.

Television Publics in South Asia S M Shameem Reza, Ratan Kumar Roy, 2023-11-20 Television has a prime role to play in the formation of discursive domains in the everyday life of South Asian publics. Nepal, Pakistan and Sri Lanka. With the help of country-specific case studies, it captures a broad range of themes which foreground the publics and their real-life experiences of television in the region. The chapters in this book discuss gendered television spaces, women seeking solace from television in pandemic, the taboo in digital TV dramas, television viewership and localizing publics, changing viewership from television to OTT, news and public perception of death, redefining 'the national', theatrical television and post-truth television news, among other key issues.
