Jorge Barraza Ibarra

The Pipil Language of El Salvador Lyle Campbell, 2011-07-22 The series builds an extensive collection of high quality descriptions of languages around the world. Each volume offers a comprehensive grammatical description of a single language together with fully analyzed sample texts and, if appropriate, a word list and other relevant information which is available on the language in question. There are no restrictions as to language family or area, and although special attention is paid to hitherto undescribed languages, new and valuable treatments of better known languages are also included. No theoretical model is imposed on the authors; the only criterion is a high standard of scientific quality. To discuss your book idea or submit a proposal, please contact Birgit Sievert.
