The (Mis)Representation of Queer Lives in True Crime Abbie E. Goldberg,Danielle C. Slakoff,Carrie L. Buist,2023-08-25 This book examines the representation and misrepresentation of queer people in true crime, addressing their status as both victims and perpetrators in actual crime, as well as how the media portrays them. The chapters apply an intersectional perspective in examining criminal cases involving LGBTQ people, as well as the true crime media content surrounding the cases. The book illuminates how sexual orientation, gender, race, and other social locations impact the treatment of queer people in the criminal legal system and the mass media. Each chapter describes one or more high-profile criminal cases involving queer people (e.g., the murders of Brandon Teena and Kitty Genovese; serial killer Aileen Wuornos; the Pulse nightclub mass shooting). The authors examine how the cases are portrayed in the media via news, films, podcasts, documentaries, books, social media, and more. Each chapter discusses not only what is visible or emphasized by the media but also what is invisible in the accounting or societal focus surrounding the case. Lesser-known (but similar) cases are used in the book to call attention to how race, gender, sexuality, sexual orientation, social class, and/or other features influence the dominant narrative surrounding these cases. Each chapter addresses teachable moments from each case and its coverage, leaving readers with several considerations to take with them into the future. The book also provides media resources and supplemental materials so that curious readers, including scholars, students, content creators, and advocates, can examine the cases and media content further. The book will appeal to scholars and students of criminology, psychology, sociology, law, media studies, sexuality studies, and cultural studies, and people with an interest in true crime.

New Uzbekistan Bakhrom Mirkasimov,Richard Pomfret,2024-05-02 This book reviews and analyses the comprehensive

socioeconomic reforms undertaken in Uzbekistan since 2016 by the government led by President Shavkat Mirziyoyev. The volume takes the reader through the different sectors of the economy and the effects of reforms on the country's citizens. The various developments are detailed, examining the gains and the gaps in terms of policy and implementation. Using the broad tools of economics and, in particular, of development economics, the authors present evidence to drive their conclusions and recommendations, and also draw on comparative cases from policy and practice to illustrate alternative approaches and results from measures in other transition countries. Implementing Uzbekistan's ambitious economic transformation into a market economy is a challenging process that takes time. This book provides the first systematic and comprehensive discussion of the government's reform areas, including the macroeconomic fundamentals, business and investment climate, the energy, transport, health, education, social protection, financial, banking and agriculture sectors, regional trade, tourism and transport connectivity, reform of state-owned enterprises, as well as public services, citizen engagement and gender equality.

Performing Public History David Dean,2025-04-09 Performing Public History explores history-telling as a performance across a wide range of media, including theatre and film, historical re-enactments and living history performances, operas, and video games. Taking historians as storytellers, this book illustrates how the choices they make shape historical meaning. While historians may strive to be objective when they research and write the past, they inevitably draw on their imagination, emotions, and creativity, aligning them with others who make history in public. The book explores issues such as the nature of archives, realism, fact and fiction, accuracy and authenticity, and actants and audiences. It draws on case studies from all parts of the world, offering global perspectives that invite a rethinking about what history is, and how and why we do it. Sharing work by graduate students, the author also offers an appendix of classroom exercises that instructors will find valuable. Written accessibly for students, this volume offers a succinct account of the discipline of history, the field of public history, and how performance is a useful concept for thinking about history work.

The Force-Free Dilemma Nicola Ferguson,2024-03-01 Dog training methodology is an increasingly hotly contested topic. A number of vocal trainers insist that dogs should be instructed through exclusively positive reinforcement, and that training should be totally force-free. Popularized through social media, the force-free training movement has grown into a lucrative, billion-dollar industry, but the consequences may outweigh the positives. This book examines the current state of dog training and discusses ethical alternatives to force-free methods. Chapters cover the history of dog training, common myths, equipment, and the merits of balanced training methods that don't dogmatically avoid occasional force.

Shifting Gears Stephanie Ross,Larry Savage,2024-09-03 In the decades following the Second World War, autoworkers were at the forefront of the labour movement. Their union urged members to rally in the streets and use the ballot box to

effect change for all working-class people. But by the turn of this century, the Canadian Auto Workers union had begun to pursue a more defensive political direction. *Shifting Gears* traces the evolution of CAW strategy from transformational activism to transactional politics. Class-based collective action and social democratic electoral mobilization gave way to transactional partnerships as relationships between the union, employers, and governments were refashioned. This new approach was maintained when the CAW merged with the Communications, Energy and Paperworkers Union in 2013 to create Unifor, Canada's largest private-sector union. Stephanie Ross and Larry Savage explain how and why the union shifted its political tactics, offering a critical perspective on the current state of working-class politics.

There Are No Facts Mark Shepard, 2022-11-08 The entanglements of people and data, code and space, knowledge and power: how data and algorithms shape the world—and shape us within that world. With the emergence of a post-truth world, we have witnessed the dissolution of the common ground on which truth claims were negotiated, individual agency enacted, and public spheres shaped. What happens when, as Nietzsche claimed, there are no facts, but only interpretations? In this book, Mark Shepard examines the entanglements of people and data, code and space, knowledge and power that have produced an uncommon ground—a disaggregated public sphere where the extraction of behavioral data and their subsequent processing and sale have led to the emergence of micropublics of ever-finer granularity. Shepard explores how these new post-truth territories are propagated through machine learning systems and social networks, which shape the public and private spaces of everyday life. He traces the balkanization and proliferation of online news and the targeted distribution of carefully crafted information through social media. He examines post-truth practices, showing how truth claims are embedded in techniques by which the world is observed, recorded, documented, and measured. Finally, he shows how these practices play out, at scales from the translocality of the home to the planetary reach of the COVID-19 pandemic—with stops along the way at an urban minimarket, an upscale neighborhood for the one percent, a Toronto waterfront district, and a national election.

Rogers v. Rogers Alexandra Posadzki, 2024-02-13 A riveting, deeply reported account that takes us inside the dramatic battle for control of Canada's largest wireless carrier, and paints a broader picture of the cutthroat telecom industry, the labyrinth of regulatory and political systems that govern it, and the high-stakes corporate games played by the Canadian establishment. Alexandra Posadzki's ground-breaking coverage in the *Globe and Mail* exposed one of the most spectacular boardroom and family dramas in Canadian corporate history—one that has pitted the company's extraordinarily powerful chairman and controlling shareholder, Edward Rogers, against not only his own management team but also the wishes of his mother and two of his sisters. Hanging in the balance is no less than the pending \$20 billion acquisition of Shaw Communications, a historic deal that promises to transform Rogers into the truly national telecom empire that its late

founder, Ted Rogers, always envisioned. Based on deeply sourced, investigative reporting of the iconic \$30 billion publicly traded telecom and media giant, Posadzki takes us inside a company that touches the lives of millions of Canadians, challenging what we thought we knew about corporate governance and who really holds the power. Rogers v. Rogers is also a story of family legacy and succession, of an old guard pushing back at the new guard, and of a company struggling to find its footing in the wake of its legendary founder's death. At the heart of it all is a dispute between warring factions of the family over how they each interpret the desires of the late patriarch and the very identity of the company that bears their name.

The British Civil Service Janice Morphet, 2025-05-28 Taking account of its evolution in recent decades, this book provides an up-to-date account of the role of the Civil Service in the UK. The book offers a much-needed re-examination of the function and role of the Civil Service and considers the ways in which it has changed in response to today's pressures. It examines the changing relationships between ministers, civil servants and special advisers (spADs), as well as investigating challenges to the principles of the Civil Service such as service outsourcing, COVID-19 responses and Brexit. Asking whether the practices of the past are effective for the future, this book is a vital resource for undergraduate and postgraduate students of UK politics, public administration and public sector management.

Against the People Bryan Evans, Carlo Fanelli, 2025-02-13T00:00:00Z The election of the Doug Ford-led Progressive Conservatives unleashed an aggressive and undisguised market fundamentalism. Ford's government has taken the assault against the social welfare state, labour and environmental protections to new and unprecedented heights. Maintaining a permanent era of austerity has not only steadily reduced the public sector as a proportion of the provincial economy but has also reduced the social protections available to Ontarians. Ford's deregulatory agenda has explicitly degraded the quality of social provisioning and eroded labour rights to the benefit of business. From undermining the fiscal capacity to fund program expenditures adequately to reducing public sector employment and service levels, Ford Nation has reordered an array of ministries and agencies to boost business and development in general and the resource-extraction and investment sectors in particular. Tens of billions have been put back into the pockets of the business community, often directly out of public coffers. Few ministries and programs have been left unscathed. Most people have not benefited. *Against the People* is the first book of its kind to provide an in-depth look into the devastating policies of the Ford government across a wide range of public policy issues: from health care, municipal, education and judicial restructuring, to economics, arts, labour, environmental, housing and Indigenous lands. Written by on-the-ground experts and focused on the Progressive Conservatives since coming to power in 2018, this book showcases the politics of dismantling a province.

Women in the History of Science Hannah Wills, Sadie Harrison, Erika Lynn Jones, Farrah Lawrence-Mackey, Rebecca Martin, 2023-03-06 *Women in the History of Science* brings together primary sources that highlight women's involvement in

scientific knowledge production around the world. Drawing on texts, images and objects, each primary source is accompanied by an explanatory text, questions to prompt discussion, and a bibliography to aid further research. Arranged by time period, covering 1200 BCE to the twenty-first century, and across 12 inclusive and far-reaching themes, this book is an invaluable companion to students and lecturers alike in exploring women's history in the fields of science, technology, mathematics, medicine and culture. While women are too often excluded from traditional narratives of the history of science, this book centres on the voices and experiences of women across a range of domains of knowledge. By questioning our understanding of what science is, where it happens, and who produces scientific knowledge, this book is an aid to liberating the curriculum within schools and universities.

Mary Ann Shadd Cary Jane Rhodes,2023-09-05 Mary Ann Shadd Cary was a courageous and outspoken nineteenth-century African American who used the press and public speaking to fight slavery and oppression in the United States and Canada. Part of the small free black elite who used their education and limited freedoms to fight for the end of slavery and racial oppression, Shadd Cary is best known as the first African American woman to publish and edit a newspaper in North America. But her importance does not stop there. She was an active participant in many of the social and political movements that influenced nineteenth century abolition, black emigration and nationalism, women's rights, and temperance. Mary Ann Shadd Cary: The Black Press and Protest in the Nineteenth Century explores her remarkable life and offers a window on the free black experience, emergent black nationalisms, African American gender ideologies, and the formation of a black public sphere. This new edition contains a new epilogue and new photographs.

Canadian Conservative Political Thought Lee Trepanier,Richard Avramenko,2023-03-24 This book corrects an imbalance in Canadian political literature through offering a conservative account of Canadian political thought. Across 15 chronologically organized chapters, and with a mixture of established and rising scholars, the book offers an investigation of the defining features and characteristics of Canadian conservative political thought, asking what have Canadian conservative political thinkers and practitioners learned from other traditions and, in turn, what have they contributed to our understanding of conservative political thought today? Rather than its culmination, Canadian Conservative Political Thought will be the beginning of conservative political thought's recovery and will spark debates and future research. The book will be a great resource for courses on Canadian politics, history, political philosophy and conservatism, Canadian Studies, and political theory.
