interactive simulations project at the university of colorado
boulder creates free interactive math and science
simulations phet sims are based on extensive education
research and engage students through an intuitive game like
environment where students learn through exploration and

web interactive tutorials these demonstrations about laws
and tools associated with electricity and magnetism allow
you to adjust variables at and to visualize invisible forces
which makes them almost better than the real thing

phet simulation magnets and electromagnets - Oct 23

web in this interactive simulation users explore the
interactions between a compass and a bar magnet and
investigate characteristics of electromagnets this resource
was developed to help students build a foundation to
understand electromagnetism and factors affecting magnetic
field strength

faraday s law magnetic field magnets phet interactive - Dec

web investigate faraday s law and how a changing magnetic
flux can produce a flow of electricity sample learning goals
explain what happens when the magnet moves through the
coil at different speeds and how this affects the brightness of
the bulb and the magnitude sign of the voltage
