Summary Study Guide the Pillars of the Earth Hyper Summary, 2020-12-14 *Pillars of the Earth* Summary and Study Guide Welsh writer Ken Follett begins his novel *The Pillars of the Earth* with the sinking of the White Ship in 1120 and ends it with the murder of Thomas Beckett in 1170. The White Ship sinking in the English Channel resulted in the death of Henry I’s only male heir. Subsequently, England descended into a period historians call the Anarchy, in which Henry’s female heir Matilda (called Maud in Follett’s book and in this summary) and his nephew Stephen went to war over succession from 1135 to 1153. Maud’s son Henry II ascended to the throne in 1154. Henry II’s feud with Thomas Beckett over ecclesiastical versus

monarchic control of the English church eventually led him to attack and kill Beckett in Canterbury Cathedral in 1170, a shock that carried across Christendom, leading to Beckett's martyrdom. Though these real-life figures appear in Follett's bestselling work of historical fiction, the book mainly deals with the lives of ordinary people. It centers around the fictional town of Kingsbridge, and of Prior Philip's attempts to build a church worthy of his temperaments and beliefs. The book was first published in 1990, and this summary refers to the Penguin mass market paperback edition.

The Tao of Islam Sachiko Murata, 1992-03-23 The Tao of Islam is a rich and diverse anthology of Islamic teachings on the nature of the relationships between God and the world, the world and the human being, and the human being and God. Focusing on gender symbolism, Sachiko Murata shows that Muslim authors frequently analyze the divine reality and its connections with the cosmic and human domains with a view toward a complementarity or polarity of principles that is analogous to the Chinese idea of yin/yang. Murata believes that the unity of Islamic thought is found, not so much in the ideas discussed, as in the types of relationships that are set up among realities. She pays particular attention to the views of various figures commonly known as Sufis and philosophers, since they approach these topics with a flexibility and subtlety not found in other schools of thought. She translates several hundred pages, most for the first time, from more than thirty important Muslims including the Ikhwan al-Safa', Avicenna, and Ibn al-'Arabi.
